Standardization of WIM OIML Recommendation R-134 on WIM

Subject: Revision of the OIML R-134

ISWIM has been invited to be a liaison organisation of the TC9 SC2 p11 in charge of revising the International recommendation R-134 on WIM. As such, ISWIM can access the working documents, and express comments but has no voting right.

A working group has been established as follows:

Leader: Chris Koniditsiotis, Co-leader: Adriana Antofie (Metrology Advisor)

Group Leaders:

Bernard Jacob, representing Researchers, liaising with the TC9 SC2 p11

Olga Selezneva, representing End-users

Andy Lee, representing the Vendors and Consultants College

The working group will distribute the OIML documents to the ISWIM members interested, collect their comments, synthesize them, search for consensus on each comment (but this is not mandatory). The three documents shall then be synthesised as a single ISWIM document. The document shall be approved by the ISWIM Board and issued. The document will only contain consensus recommendations of ISWIM.

ISWIM members interested to check the TC's documents and express comments, are invited to send an email to: chrisk2.0@bigpond.com, adriana.antofie@spw.wallonie.be, iswim@free.fr by June 19, stating:

"As ISWIM member, I am interested to contribute to the elaboration of ISWIM comments for the revision of the OIML R-134. I certify that I will not disseminate the documents of the TC9 SC2 p11 to any third party."

Chris Koniditsiotis
President
International Society for Weigh-In-Motion (ISWIM)
