

ISWIM Scholarship 2018

International Society for Weigh-In-Motion

The ISWIM is an international non-profit organization, founded in 2007, legally based in Switzerland. It is an international network of and for people and organisations active in the field of Weigh-In-Motion. One of our purposes is to support advances in and the more widespread use of Weigh-In-Motion technologies and the applications of WIM data.

This we do through the organization of several regional seminars every year and the International Conference on WIM (ICWIM) every couple of years. Currently ISWIM has 700 individual members from 70 countries and all continents, and 18 WIM vendors as corporate members.

ISWIM Young Researcher Award

This award recognises young tertiary level students from around the world who are making a contribution to the Weigh-in-Motion (WIM) field and are demonstrating a passion through their studies and possibly early professional life.

ISWIM will fully sponsor at least three recipients to attend the 8th International Conference on WIM (ICWIM-8) in Prague next year to present their work (poster paper or oral presentation), visit the exhibition, and further develop their industry knowledge and global network.

Application

The applicants should email an abstract of their work together with their CV and two references to Lily Poulidakos at lily.poulidakos@empa.ch before October 30th 2018. The ISWIM Board will evaluate the work submitted and notify winners in January 2019.

Our Society

The International Society for Weigh-In-Motion brings together users, researchers, and vendors of systems for dynamic weighing of vehicles. Membership of ISWIM is free of charge for individual members.

Purposes

The purposes of ISWIM are:

- To support advances in and the more widespread use of Weigh-In-Motion technologies and the applications of WIM data.
- To disseminate knowledge and understanding of WIM by organising conferences, seminars, training courses and other events.
- To promote and support international research and development projects on WIM.
- To initiate or participate the development of standards relating to WIM and its applications
